US Eastern Time

06.30-07.15 Uniting in the Morning

Horasis Community Building

Horasis is providing a matchmaking tool to connect with other delegates - each participant will be randomly matched with another to speak for 5 minutes by video, then become paired with another, and so on. It is hoped that these brainstorming links will unite delegates and initiate creativity to inspire through the rest of the meeting.

Chaired by

- **Frank-Jürgen Richter**, Chairman, Horasis, Switzerland

07.15-08.00 Breakfast Sessions

The Horasis Debate: Will President Biden Make the US Economy Great Again?

Although Joe Biden might rely upon a higher level of trust than his predecessor, it is still questionable whether he will be able to meet the expectations of the voters to revive economic growth. How viable are the President's economic plans? How will he jumpstart the US economy? Is he going to make the US economy great again?

There are two speakers for, and two against the motion. The audience is allowed to appear on the screen and to make comments (controlled by the judge). The judge will summarise at the end, and give a verdict.

Debating for the motion

- **Francisco J. Sanchez**, Former US Under Secretary of Commerce, USA
- **Jerry Hultin**, Chair, New York Academy of Sciences, USA

Debating against the motion

- **Ryan Bourne**, R. Evan Scharf Chair in the Public Understanding of Economics, Cato Institute, USA
- **J.D. Gordon**, Former Pentagon Spokesperson, USA

Judged by

- **Swaha Pattanaik**, Global Economics Editor, Reuters Breakingviews, United Kingdom

Pursuing Purpose to Rebuild Trust

The COVID pandemic has been devastating for many firms: its aftermath provides a unique opportunity to encompass a purpose driven ideal. How to integrate purpose into the corporate organization and how to put purpose first so that our planet can thrive for generations to come? How to craft incentives and policies across society to ultimately build trust in a shared identity?

- **Daryl Brewster**, Chief Executive Officer, Chief Executives for Corporate Purpose (CECP), USA
- **David Fergusson**, Executive Managing Director, Generational Equity, USA
- **Brett Hudson**, Director of Ethics Risk and Compliance, Novartis, Switzerland
- **Sari Miller**, Chief Executive Officer, Sarjay, Inc., USA
- **Stephen Scott**, Founder and Chief Executive Officer, Starling Trust Sciences, USA

Chaired by

- **Donny Huang**, Founder and Managing Director, 4stones, China

Anchoring Trust: American Solutions for an Impact-led Recovery

The impact of COVID-19 on US has been enormous; however, in adversity there is opportunity to unlock trust. How to seize the moment to realign profit with social and environmental impact? Who will lead an American regeneration based on impact investing principles? How can US firms integrate their impact-led growth strategies within a collaborative web of trust-based relations?

- **Ben Banerjee**, President, Swiss Impact Investment Association, Switzerland
- **Michael Drexler**, Chief Strategy Officer, Brightstar Capital Partners, USA
- **Tris Dyson**, Founder and Managing Director, Nesta Challenges, United Kingdom
- **Gail Christine Gannon**, Managing Director, WaveEdge Capital, USA
- **Oliver Libby**, Managing Partner, H/L Ventures, USA

Chaired by

- **Jerry Power**, Founder, I3 Systems, USA

The Future of Obamacare

Former President Trump was trying hard to thwart the Affordable Care Act commonly known as Obamacare, labelling it dysfunctional and too expensive. Obamacare's goal was to provide affordable health insurance coverage for all Americans. What is ahead for health care under President Biden? And how to leverage private sector innovation to improve access to affordable coverage and high-quality care?

- **Ravi Amble**, Founder and Chief Executive Officer, Suquino, USA
- **Lernik Essayei**, Associate Director of Digital and Innovative Solutions, Memorial Sloan Kettering Cancer Center, USA
- **Adam Gluck**, Head, U.S. & Sanofi Genzyme Corporate Affairs, Sanofi Genzyme, USA

Chaired by

- **Gary Phillips**, Chief Executive Officer, OrphoMed Inc, USA

In Governance we Trust

With the growing public skepticism with regards to the way our institutions work, the matter of trust has become a major concern in the US and most other countries around the world. The impact of COVID-19 and the pressures of accelerated technological change are further eroding social cohesion and the healing factor of trust. How to reverse this alarming trend? And what are possible guidelines for trust-building governance in an era of heightened uncertainty?

- **Luca Jahier**, Member of the Board, European Economic and Social Committee, European Union
- **Augusto Lopez-Claros**, Executive Director, Global Governance Forum, USA
- **Jed Rakoff**, Senior Judge, United States District Court for the Southern District of New York, USA
- **Mykolas Rambus**, Entrepreneur in Residence, Detroit Venture Partners., USA

Chaired by

- **Yilmaz Argüden**, Chairman, ARGE Consulting, Turkey

Trust Leaps: Why America is a Champion of Globalization

Prior to COVID-19 America benefited greatly from the accelerating processes of globalization – and even now, the US position at the leading edge of innovation is re-inventing global supply chains to interconnect fast-reacting value creation, particularly in the digital realm. How is the US impacting the global economy and potentially shaping the very nature of globalization?

- **Bo Inge Andersson**, President, Yazaki North and Central America, Europe and Africa, USA
- **Luigi Cavallito**, Co-founder, Good Influences, Lebanon
- **Jacques Tourel**, Chairman, World Trade Centre Warsaw, Poland
- **Jitesh Shetty**, Founder, Qwiklabs (Subsidiary of Google), USA

Chaired by

- **John Cook**, Chairman, Rock Lake Partners, Switzerland

US-China Relations: From Trade War to Tech War

The US and China have been contesting for economic supremacy, and their antagonism has moved on from imposing taxes on imports to suppressing each other's tech industries. Is President Biden going to follow the Trump Administration's hard-line vis-a-vis Chinese technology? And are tensions over tech going to potentially slow the development of Artificial Intelligence and 5G?

- **Rob Atkinson**, President, Information Technology and Innovation Foundation, USA
- **Yukon Huang**, Senior Fellow Asia Program, Carnegie Endowment for International Peace, USA
- **David Pan**, Executive Dean, Schwarzman College, Tsinghua University, China
- **Jerry Wang**, Chief Executive Officer, Haitou Global, USA
- **Wang Huiyao**, Founder & President, Center for China & Globalization, China

Chaired by

- **John Quelch**, Dean and Vice Provost, University of Miami Herbert Business School, USA

The Potential Mistrust in Technology

There is growing public distrust about the misuse of technology. Trust is potentially being undermined by breaches of ethical standards at the initiation of scientific and technological change. What are the risks and opportunities of new technologies? And how to draw the line between hopeful progress and devastating negative effects?

- **Jasper Cao**, President, Wisetrade Inc, China
- **Laetitia Garriott de Cayeux**, Co-founder and Chief Executive Officer, Global Space Ventures, USA
- **Mohit Joshi**, President, Infosys, United Kingdom
- **Liz O'Day**, Chief Executive Officer and Founder, Olaris, USA
- **Srikar Reddy**, Chief Executive Officer, Sonata Software, India

Chaired by

- **Annette Nijs**, Former Cabinet Minister for Education, Science and Culture, The Netherlands

The Belt and Road: Powering Forward

The Belt and Road project initiated by China comprises several land routes and two maritime routes: it now incorporates high-speed train lines and massive infrastructure projects. How will the numerous enterprise parks along the B&R and its many transport routes benefit the global economy? How will the new US Presidency react to its continued expansion?

- **William Bao Bean**, General Partner, SOSV, China
- **Anthony Chan**, Chairman, Gretchen, Hong Kong
- **Wayne Lee**, President, Powertec, USA
- **Ikram Sehgal**, Chairman, Pathfinder Group, Pakistan
- **Yang Min**, Entrepreneur in Residence, Northern Light Venture Capital, China

Chaired by

- **Winston Mok**, Private Investor and Columnist, South China Morning Post, China

The COVID-Generation Losing Trust

The 'COVID generation' could be lost to long periods out of work as US and global youth unemployment is on course to dramatically increase. How to prevent negative long-term consequences on a whole generation? And what do young people expect from their leaders and governments?

- **Amir Hosseini**, Co-Founder, Curry Up Now, USA
- **Kevin Lee**, Chief Operating Officer, China Youthology, China
- **Vered Pnueli**, Co-founder, Shenkar Game Design Program, Shenkar College, Israel
- **Alex Witt**, Chief Financial Officer, cLabs, USA

Chaired by

- **Heidi Cuppari**, Chief Executive Officer and Co-founder, Dream Tank, USA

Creating Trust through Cryptocurrencies

The cryptocurrency distributed electronic ledger guarantees it is almost tamper-proof: even with no-one in charge it is self-regulating. Central bankers have strong views on crypto-currencies, some ban them, others embrace them. Are they investable, maybe growing as a bubble? What is the US SEC doing to enforce regulation of crypto-exchanges and make its market safer?

- **Boyan Ivantchev**, President, Boyan Ivantchev Advisory, Bulgaria
- **Moon Jerin**, Founder, Doctrina, Canada
- **Rob Leslie**, Founder, Sedicii, Ireland

Towards Trustworthy and Responsible Leadership

The United States and many other nations have noted reduced trust in the ability of political leaders to address the challenges crucial to our daily lives and our future. Cynicism about political leaders is running high, particularly when new pressures arising from globalization are making the involvement of government more important than ever. How to install trustworthy and responsible leaders with the inspiration and power to solve the issues that our nations needs to solve?

- **Manuela Andaloro**, Managing Director, SmartBizHub, Switzerland

Can we Trust the FANGs?

The big tech firms (Facebook, Amazon, Netflix, Google) have been leading a wave of Internet-based innovation and economic growth. Still, they are currently being investigated by national regulators for potentially abusing their market position and restricting competition. Does the solution lie in anti-monopoly and fair financial level playing field measures? Should the FANGs even be split-up?

- **Kareem Alkaseer**, Chief Executive Officer, MentorLycon, Russia
- **Ángel Cabrera**, President, Georgia Institute of Technology, USA
- **Samir Patil**, Founder and Chief Executive Officer, ScrollStack, USA

We are Who we Are

Simple to say, and generally agreed – but difficult to define. What defines us individually and collectively? Who is ‘me’? Why, in a crowd beset by the fallout from the pandemic, do we behave differently? If we could be characterized minutely would it be good – for me, for humanity? How do we describe the benefits of individuality?

Preparing for the New Pandemics: Lessons from Science and Policy

Pandemics are like Damocles swords dangling over the world's public-health systems. What lessons from past and current pandemics can we build-on to prepare for the next round? What effect has the current pandemic had on public perception of science and the role various stakeholders can play in helping the world to prepare for what comes next? Can emerging social and physical sciences, technology, intelligence and governance progress to head-off or at the very least reduce the infection rate beneath the epidemic realm?

Impact of Narratives on Africa's Development

In an increasingly globalized era, where communications drive impetus for connection-building and competition, it is ever more important for countries to carefully craft the image they wish to portray to the rest of the world. Africa is a continent in which many outsiders have built narratives around it for centuries, many of which have prevailed today. This session seeks to shed light on the narratives that African leaders are expressing to the world about their country.

Getting Beyond Power Politics: Narratives for a Trust-Centred World Order

Greek philosopher Plato explained the need for "philosophers to become kings, or kings to become philosophers." To be sure, national leaderships across the world are still generally not philosophical – they are based on the presumed supremacy of power politics over trust and wisdom. How might this continuing and fundamental impediment to world order reform be remedied in ways that can actually get us beyond power politics? And how to design more trustworthy and durable configurations of planetary society?

Reconsidering the Basic Wage as Universal Right

Many Americans do not like the idea of giving away money as a universal basic income. Some progressive Democrats lean towards the idea as it might stimulate the economy directly by increasing people's spending power. How much ought each citizen receive? Will this decrease all incentives to work, or permit people to job-shift more easily?

Repurposing the C-suite for Diversity

The US Corporate Suite, the top of the decision-making tree, has long been a male preserve: even today there are only 6 percent female CEOs. There are female Presidents leading nations, why not in business? Why is there a general resistance to female appointments especially by the younger generation? What changes would women make in the business world?

Civil Society Resuscitating the Global Trust Crisis?

Globally there has been a gradual reduction of trust in parliamentarians, judiciary and other institutions as their systems fail to govern, or have become too opaque. Can Non-government Organizations (NGO's) and especially civil society pressures rejuvenate governance and trust? Would civil societies' tentative nature defeat the goals of raising trust in our democratic bodies?

Implementing Coherent Socio-economic Policies

Coherency implies inclusive debate: at present there is an anti-intellectualism that seeks simple answers and negates trust, context and complexity. Strong nationalism, even mob violence, delays socially inclusive economic policy development – emergency measures are enacted. How can these negativities be overcome to freely discuss the many differences across society? And across national borders where ideologies also differ?

Ensuring Knowledge is Free

Knowledge sets one free they say - and that is predicated upon open, transparent, unbiased, enquiring, abundant education. How to create a more egalitarian, classless society able to absorb and apply knowledge? Is this a view untenable in a poor underdeveloped world as education favors the wealthy? What critical factors are missing even in rich America?

Is it Unethical to Not Use AI?

Society has long recognized the need to restrain the misuse of AI, but in some situations it may be unethical to preclude the use AI. As we struggle to handle the cacophony of political voices and the fire hose of data that inundates us, AI has become an essential part of the filtering process, but it is also, increasingly, blamed for the misunderstanding and misinformation. A better melding of human and machine intelligence could be the key to a better future but could blurring the line between them bring unintended consequences? ? Is AI the problem or the solution?
