Welcome

I warmly welcome you to the 2023 Horasis Global Meeting and sincerely hope that you will enjoy the discussions. My thanks go to the City of Gaziantep for co-hosting the event.

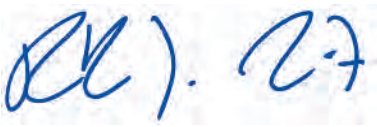

The Horasis Global Meeting aims to be the world's foremost annual gathering of business leaders who interact with heads of governments, key ministers and eminent thought leaders. The meeting's purpose is to advance solutions to the most critical challenges facing corporations today. Participants share a common interest in mapping our global economies.

Under the theme 'Creating Impact with Innovation, Sustainability and Reconstruction', participants will share insights on the current state of the world which seems to become more fragile and fractious.

Gaziantep and the southern region of Türkiye were hit by a massive earthquake earlier this year: participants are invited to propose solutions to reconstruct the city. Being a cradle of various civilizations over the course of time, the City of Gaziantep is a historical, cultural, touristic, and industrial city that will underscore this year's meeting theme. The city and the Turkish national government are focusing on sustainable growth and looking to the future with confidence to create impact.

The Horasis Global Meeting shall devise novel ideas to sustain and nurture our development in the future.

I wish you a thought-provoking and exceptional meeting.

Dr. Frank-Jürgen Richter
Chairman
Horasis: The Global Visions Community

A Warm Welcome to the Horasis Global Meeting

It is with great pleasure and immense pride that I extend my warmest welcome to each and every one of you to our beautiful city as we host the prestigious Horasis Global Meeting in Gaziantep. As the Mayor of this remarkable city, it is an honor to host this extraordinary gathering of minds, innovators, and leaders from around the world. This meeting represents a convergence of visionaries who are dedicated to finding solutions to some of the most pressing global challenges. Together, we embark on a journey that transcends borders, cultures, and backgrounds to collectively shape a better future for all.

The theme of this year's meeting, "Creating Impact with Innovation, Sustainability, and Reconstruction" couldn't be more relevant. Our city, like the world, faces many challenges, and it's these very challenges that fuel our innovation, resilience, and strength. We are a part of the interconnected world we strive to improve, and our vibrant, inclusive community reflects the global tapestry of cultures, ideas, and dreams that make our shared journey so inspiring.

I have every confidence that this meeting will be a catalyst for profound change. As we exchange ideas, share experiences, and cultivate partnerships, we lay the foundation for a more harmonious, prosperous, and sustainable future. Our collective efforts and unwavering commitment to making a difference are the cornerstones of this progress. Our city, with its six thousand-years-long history, stunning landscapes, and warm hospitality, is the ideal backdrop for this transformative event. I encourage all the participants to take some time to explore our city, engage with its people, and savor its unique cuisine. I hope that your stay here will not only be professionally enriching but also personally fulfilling.

I want to express my sincere gratitude to the Horasis Global Meeting organizers, sponsors, and the dedicated team of individuals who have worked tirelessly to make this event possible. Your dedication to global betterment is truly commendable. In closing, I would like to reiterate our warm welcome to all the delegates. May your time here be filled with productive discussions, meaningful connections, and shared insights. Together, let us embark on this incredible journey towards a better world. Once again, welcome to our wonderful city, and welcome to the Horasis Global Meeting.

Sincerely,

A handwritten signature in blue ink, appearing to read "F. Şahin".

City of Gaziantep: Gaziantep (Turkish pronunciation: [ga:'ziantep]), historically Aintab and still informally called Antep (pronounced ['antep]), is a major city in south-central Turkey. It is the capital of the Gaziantep Province, in the westernmost part of Turkey's Southeastern Anatolia Region and partially in the Mediterranean Region. It is located approximately 185 km (115 mi) east of Adana and 97 km (60 mi) north of Aleppo, Syria and situated on the Sajur River. The city is thought to be located on the site of ancient Antiochia ad Taurum and is near ancient Zeugma.

Gaziantep Chamber of Commerce (GTO), which was established in 1898 under the name of 'Chamber of Agriculture, Commerce and Industry' and then renamed as 'Gaziantep Chamber of Commerce and Industry' in 1910, finally received its final title 'Gaziantep Chamber of Commerce' in 15.05.1989. Gaziantep Chamber of Commerce, which has contributed greatly to both Gaziantep and the country's economy since its establishment, has played a very important role in the planned development of commerce and industry in the city. Gaziantep Chamber of Commerce, which realized very important activities in reviving the commercial life of Gaziantep and increasing its production capacity, has been using all available means in the promotion and representation of our city and serving its members by loudly expressing their problems. Gaziantep Chamber of Commerce, which constantly renews and develops itself in line with the requirements of the current era, serves its members effectively with its staff of 75 people. GCC, which has been working as the driving force of the city and the region for more than 120 years, having worked also in socio-cultural areas, has adopted the mission of providing sustainable competitive strength to its stakeholders, the city of Gaziantep and the region with a pioneering management approach, with the vision of making Gaziantep one of the first 4 provinces in the national economy in 2023.

Gaziantep Chamber of Industry (GSO): In the late 80s, a quite considerable manufacturing sector was established in the Unaldi area, Nizip Street, the Small Industrial Site, the Sample Industrial Site, and the Second Industrial Area. Therefore the issues regarding transportation, infrastructure, energy, and the environment were beginning to separate from the usual trading issues. With the new problems, the needs and expectations of industrialists were different. The establishment serving back then called ‘Gaziantep Chamber of Industry and Commerce’ was re-established as ‘Gaziantep Chamber of Industry’ by industrialists’ huge efforts in 1989 with the Law of Union of Chambers and Commodity Exchanges No. 5174. As it is stated in the law, the GCI (GSO) is founded as a public corporation with a legal entity in order to fulfill the common needs of the members; facilitate professional activities; help to improve the professions in accordance with the general interests; protect and dominate the solidarity, discipline and morality of relationships for both in between members and public; perform the tasks stated in the law regarding the services and duties given to the Chamber.

Gaziantep Chamber of Industry has accomplished its corporate development by aiming to improve its service quality continuously since it was established and with the experience it had, the GCI completed many projects to benefit the members.

Southeast Anatolian Exporters’ Associations (GAIB): The Exporters Associations have been established with the aim of contributing to the improvement of exports, carrying out export related transactions on behalf of their members and coordinating business activities and relations of exporters, finding solutions to their problems and providing guidance.

Exporters engaged in different sectors join exporters’ associations depending on the type of their business operations. Each exporter’s association has a board of directors, whose members are elected by the exporters.

Southeast Anatolian Exporters Assc. were found in 1984 for the purpose of increasing export in Gaziantep and in Southeast Anatolia Region of Turkey. There are four exporters association within the General Secretariat of the Southeast Anatolian Exporters Associations, which is abbreviated to GAIB. GAIB has its headquarters in Gaziantep and renders its services to its active members via its liaison offices in Diyarbakır, Kahramanmaraş, Malatya, Mardin, Şanlıurfa, Adıyaman, Kilis, Cizre/Şırnak and Gaziantep Free Zone in the region.

08.00-09.15 Update Sessions

Morning Contemplation, Visualization and Goal Setting (Room 6)

Futurist and Zen practitioner Benjamin J Butler and teacher of conscious leadership Sujith Ravindran will lead a session to prepare you for and maximise the opportunities during the Horasis Global Meeting. The session might include silent time, easy movement, journaling, dialogue, and visualization.

- **Benjamin J. Butler**, Futurist, Embassy of the Future, Hong Kong
- **Sujith Ravindran**, Member Board of Directors, Wise EU Foundation, The Netherlands

Reconstructing Gaziantep (Room 1)

A disastrous earthquake hit Gaziantep in February 2023: now in Gaziantep and across the region rebuilding is on-going according to the best of modern standards. These new-builds will incorporate all good ideas for sustainability, supporting innovation and thus competitiveness to boost the economy. What is the critical listing of needs from buildings to purposeful changes in societal practices? Can the changes be done rapidly, or must we reflect deeply on purposefulness and the people's needs?

- **Claude Béglé**, Chairman, SymbioSwiss, Switzerland
- **Bünyamin Bozgeyik**, Member of Parliament, Türkiye
- **Güneş Cansız**, Country Director, World Resources Institute, Türkiye
- **Yean Lee Chong**, Head of Strategic Partnerships, Lexasure Financial Group, Singapore
- **Andres Hayes**, President and Chief Executive Officer, Airtifae Group, USA
- **Vivek Kaliraman**, Founder and Chief Executive Officer, Perci, USA
- **Sakthy Selvakumaran**, Engineering Fellow, Centre for Smart Infrastructure and Construction, United Kingdom

Chaired by

- **Mehmet E Akdoğan**, Human Settlements Officer, UN Habitat, Türkiye

Reconstructing the Economy (Room 2)

The globe is suffering from a complex of assaults that result in the global economy being degraded: wars and their widespread effects cause havoc; the effects of COVID, on families, on work practices and on national finances have ripple effects that seem unabating; and the ever-greater effects of climate change create extreme effects. How can we look at these and redefine them as opportunities to change for the better? What changes to economies or work practices incorporating ESG practices as well as AI, will yield the greatest good?

- **Metin Akman**, Chairman, Anako, Türkiye
- **Naser Almarri**, Deputy Chairman, NCM Investment, Kuwait
- **Yilmaz Argüden**, Chairman, ARGE Consulting, Türkiye
- **Baraa Bakkar**, Chief Executive Officer, Premiera Education Group, Türkiye
- **Christophe Eck**, Partner, Gide Loyrette Nouel, France
- **Urs Unkauf**, Managing Director, Managing Director, BWA Global Economic Network, Germany
- **Yipeng Corey Wang**, Founder and Director, IrisInvest, Ukraine

Chaired by

- **Mirjana D. Perko**, Founder and Chief Executive Officer, InCon, Slovenia

Reconstructing the World (Room 3)

We need a new accord akin to the 1944 Bretton Woods agreement that altered the global economic and political management. But have we let chaos mount, leaving attempts to change too late? How do we achieve small wins to accomplish concrete though incomplete outcomes of moderate importance that increase global trust and wellbeing? Across economies, conflicts, climate change – what will decrease global distortions? What new international organizations do we need?

- **Kanishka Arumugam**, Chief Executive Officer, Ekki Water Technologies, India
- **Sham L. Bathija**, Former Minister for Economic Affairs, Afghanistan
- **James Hodson**, Chief Executive Officer, AI for Good Foundation, USA
- **Divya Lal**, Founder and Managing Director, Fliplearn Education, India
- **Senida Mesi**, Former Deputy Prime Minister, Albania
- **Emily Slater**, Executive Director, Bretton Woods Committee, USA
- **Gligor Tashkovich**, Former Minister for Foreign Investment, North Macedonia

Chaired by

- **Ville Korpela**, Executive Director, Impact Innovation Institute, Finland

Reconstructing Hope (Room 4)

Now more than ever, it is important to come together to create social and economic prosperity for all. How can different stakeholders cooperate to create systemic solutions to the challenges facing humanity? How can we reconstruct hope to shape a brighter future? What catalyst is needed to nurture that momentum on a global scale?

- **Michael Haiden**, Researcher in Philosophy, University of Salzburg, Austria
- **Kern Frost**, Founder, Council for Human Development, United Kingdom
- **Orde Levinson**, Artist and Writer, author of the “The End of Hope”, Magdalen College Oxford, UK
- **Aïcha El Hammar Castano**, International Producer, ABC News, Türkiye
- **Saurabh Tak**, Investment Manager, Circulate Capital, Singapore
- **Karen Tse**, Founder and Chief Executive Officer, International, Bridges to Justice, Switzerland
- **Zabi Ziarmal**, Chairman, WTC Afghanistan, Afghanistan

Chaired by

- **Ann D’Silva**, Author & Social Change Activist, Türkiye

09.30-10.00 **Grand Opening** (Auditorium)

Horasis and the City of Gaziantep welcome participants to the 7th annual edition of the Horasis Global Meeting. Horasis Chairman Frank-Jürgen Richter and Mayor Fatma Şahin present an overview of the Meeting. Being a cradle of various civilizations over the course of time, the City of Gaziantep is a historical, cultural, touristic, and industrial city that will underscore this year's meeting theme 'Creating Impact with Innovation, Sustainability and Reconstruction'. Gaziantep and the southern region of Türkiye were hit by a massive earthquake earlier this year: participants are invited to propose solutions to reconstruct the city.

- **Fatma Şahin**, Mayor of Gaziantep, Türkiye
- **Frank-Jürgen Richter**, Chairman, Horasis, Switzerland
- **Mehmet Şimşek**, Minister of Treasury and Finance, Türkiye

10.00-11.00 **Improving our World under Stress** (Auditorium)

Gaziantep and nearby towns and villages in Türkiye faced great trauma in February when two massive earthquakes struck. Meanwhile the world is facing long-term issues – there are many financial tensions due to continuing inflation, water and food pressures due to climate change and fractured global trade. The active conflicts surrounding Ukraine and the Middle East increase global tensions. What are the best route maps for nations and firms to meet their futures? How to define the best futures under global uncertainties?

- **Ömer Bolat**, Minister of Trade, Türkiye
- **Bjørn Berge**, Deputy Secretary General, Council of Europe, France
- **Senida Mesi**, Former Deputy Prime Minister, Albania
- **Nail Olpak**, President, Foreign Economic Relations Board, Türkiye

Chaired by

- **Rhett Power**, Forbes Columnist & Chief Executive Officer, Accountability Inc, USA

10.00-11.00 Plenary: World Economic Outlook (Auditorium)

Not since the global financial crash of 2008 has the world faced such crises. COVID demanded vast cash for its control, cutting all productivity - now its debts need to be repaid while global inflation increases. Despite many earthquakes and the aftermath of the 2011 Syrian conflict, Türkiye is optimistic. Globally there are unsettled markets, especially for food and fuels; and climate change effects are strong. How to balance all these competing needs while heeding sustainability and the need for reconstruction and economic growth?

- **Mehmet Kemal Bozay**, Deputy Minister of Foreign Affairs, Türkiye
- **HRH Princess Dr Nisreen El-Hashemite**, Executive Director, Royal Academy of Science International Trust, USA
- **Mustafa Rifat Hisarciklioglu**, President, Union of Chambers and Commodity Exchanges of Türkiye, Türkiye
- **Ahmet Fikret Kileci**, Chairman, Southeast Anatolian Exporters' Associations, Türkiye
- **Adil Sani Konukoğlu**, Chairman, Sanko Holding, Türkiye
- **Emily Slater**, Executive Director, Bretton Woods Committee, USA

Chaired by

- **Pranjal Sharma**, Contributing Editor, Business Standard, India

12.00-13.00 Plenary: Cooperating to Revitalize and Rebuild Cities (Auditorium)

This session is held in Turkish language. Simultaneous interpretation is provided.

Cities grow as their economic and strategic importance entices people to them: we need to understand how a city works and what a modern city needs now and in its future. Smart, green and resilient aspects are all needed, especially after a natural disaster like the one in Southern Anatolia - how to provide these aspects and get them to work seamlessly? How will novel intervention by mayors build joint economic potential? How will all-inclusive digitalization aid regeneration and future-proofing in Türkiye and elsewhere?

- **Ömer Bulut**, President, Housing Development Administration of Türkiye (TOK), Türkiye
- **Fatma Varank**, Deputy Minister of Environment, Urbanization and Climate Change, Türkiye
- **Hayrettin Güngör**, Mayor of Kahramanmaraş, Türkiye
- **Lütfü Savaş**, Mayor of Hatay, Türkiye
- **Mehmet Tuncay Yıldırım**, Gaziantep Chamber of Commerce, Türkiye
- **Adnan Ünverdi**, Chairman, Gaziantep Chamber of Industry, Türkiye

Chaired by

- **Emir Eksioğlu**, Advisor, Horasis, Türkiye

13.00-14.00 Networking Lunch (Foyer)

An opportunity to meet to open new ventures with other delegates.

14.00-15.30 Sessions

Türkiye at the Forefront: Generating Change (Room 1)

Türkiye's Twelfth Development Plan to 2028 reaches to its vision for 2053: strongly poised to develop its economic, social and environmental goals. It looks to be a pivot on the Euro/Asian stage while developing its cultural heritage. How best to avoid unforeseen consequences while rapidly changing, and developing research and innovation sectors? How to attract and create the best enablers of innovation and global research? What exemplars might it follow?

- **Cem Baytok**, Managing Partner, Idacapital, Türkiye
- **Adviye Bergemann**, Founder and President, AIDA Tourism, Türkiye
- **Deniz Erkus**, Partner, Leonie Hill Capital, Switzerland
- **Gözde Nur Kıran**, Founding and Managing Partner, Kiran Yildirim Law, Türkiye
- **Alphan Manas**, Futurist and Serial Investor Türkiye
- **Halil Sağlam**, Partner, Nazali, Türkiye
- **Neslihan Yakal**, Secretary General, Ethics and Reputation Society, Türkiye

Chaired by

- **Sibel Soyak Esder**, Founder, Rezonans Entrepreneurship Services, Türkiye

Developing Mobile Globalized Disaster Management (Room 2)

As the earthquake in Gaziantep showed, after each major disaster discussions refer to the mobilization of disaster relief. But the complexities of in-depth data collection, analyses and deployment of the best initial relief seem to overcome the best of intentions. Who ought to co-ordinate and manage a rapid deployment force? And what subsequent relief systems ought to be planned, so be rapidly deployable? Would countries learn to accept aid from other cultures in these relief centers?

- **Begum Aydinoglu**, Founding Partner and Creative Director, Sensory, Türkiye
- **Selena Milanovic**, Senior Consultant, Siemens Advanta Consulting, Germany
- **Nicholas Ramos**, Program Coordinator, UN Office for Disaster Risk Reduction (UNDRR), Belgium
- **Christian Resch**, Managing Director, Disaster Competence Network Austria, Austria
- **Matthew Smith**, Head of Middle East, HALO Trust, United Kingdom
- **Can Zülfiyar**, Assistant Professor, Istanbul Technical University, Türkiye

Chaired by

- **Vivek Atray**, Founder, Vibrant Advisory Services, India

Leadership in Uncertain Times (Room 3)

The current multiple global crises show how old models of governance are running on empty. Leaders in business and government have to reimagine a world full of uncertainties and be innovative to instill their personal vision to lead to higher goals. What are the best ways for leaders to navigate the world? And how can they cope with greater uncertainty?

- **Sertan Ayçiçek**, Group President, IKAR Holdings, United Kingdom
- **Aysegul Dicle Aydin**, Founding and Managing Partner, ADA Global Partners, Türkiye
- **Priscilla Clarke**, President, Clarke & Associates, USA
- **Shaun Deverson**, Director, Lighthouse Futures, Australia
- **Dana Ulrike Glatz**, Founder, Global Impact Alliance, Germany
- **Cecilia Kindelan**, National Director Executive MBA program, ESIC Business and Marketing School, Spain
- **Stefan Liebong**, Chief Executive Officer, Conjuncta, Germany

Chaired by

- **Jerry Power**, Founder, I3 Systems, USA

Technology for Betterment of Humanity (Room 4)

Disruptive technologies change the way markets operate. In a post-COVID world dealing with climate change, what are the most important emerging technologies with the potential to transform society planet, economy, and industries? Which sectors, products and related investments may yield the best results for commerce, humankind, and environment?

- **Ayla Annac**, Chief Executive Officer, InvivoSciences, USA
- **Lina Constantinovici**, Founder and Chief Executive Officer, Innovation 4.4, USA
- **Mathieu Gram**, Founder, QLX, Belgium
- **Dariusz Gibasiewicz**, Chief Executive Officer, SATIS, Poland
- **Sam Glassenberg**, Chief Executive Officer and Founder, Level Ex, USA
- **Cenap Kuloglu**, Co-founder, LCF Kuloglu, Türkiye
- **Jeffrey Steiner**, President and Executive Director, Angel Investors Ontario, Canada

Chaired by

- **Hannah Brocke**, Co-founder & CSO, PlanBlue, Germany

Fostering the Global Public Good (Room 5)

Developments in Türkiye such as such examples – transitioning to clean fuels, exporting electricity, de-desertification, developing resilient and smart cities and raising education levels. Most of us agree these are good ideas, as helping others also helps us. But how to demonstrate this in practice? How to convey good ideas to other cultures? Why do we resist beneficial changes?

- **Mattias Bergstrom**, Founder and Chairman, Internet of Everything Corp, USA
- **Mavis Yaa Bermudez**, Chief Executive Officer, Cardinal Security Services, Ghana
- **Luis Gomez Cobo**, Founder and Director, SLC Holdings, Switzerland
- **Angela Kallhoff**, Chair of Ethics, University of Vienna, Austria
- **John A. Quelch**, Charles Edward Wilson Professor Emeritus, Harvard Business School, USA
- **Tanyer Sönmezer**, Senior Partner, Management Centre Türkiye, Türkiye

Chaired by

- **Pedro David Espinoza**, Chief Executive Officer, Pan Peru, USA

Poverty Stoplight (Room 6)

Allow the poor to measure their own multidimensional poverty and develop their own family plans to overcome their deprivations? Sounds impossible? As governments appear to not be on track to reach the UN's sustainable development goals with the current top-down metrics and monetary indexes, a new metric and coaching methodology called the Poverty Stoplight (now being implemented in more than 50 countries) is doing just that with 800 partners from around the world.

- **Connie D. M. Allsopp**, Founder and Business, The World's Registrar, Canada
- **Andy Cox**, Founder, SIGNAL, United Kingdom
- **Abshir Mohamud Hassan**, Chief Executive Officer, Hamiworth Enterprise, Türkiye
- **Mark Hollingsworth**, Chief Executive Officer, The Nutrition Society, United Kingdom
- **Marko Kasic**, Founder, FundLife, The Philippines
- **Chelsea Manalo Tiu**, Founder, Beautify MNL Corp, The Philippines
- **Diana Skelton**, National Coordination Team, ATD Fourth World, United Kingdom

Chaired by

- **Martín Burt**, Founder and Executive Director, Fundación Paraguaya, Paraguay

Spurring Entrepreneurship in Times of Crisis (Room 7)

The incessant creative destruction of the old was called a gale by economist Joseph Schumpeter. And while existing operating models are coming under pressure, entrepreneurs need to balance staying agile and pivoting when needed. How to ride this gale in the context of the emerging economic crisis? What are the strategies of entrepreneurs for inspiring in this new age? And how to close the gender gap in entrepreneurial ventures?

- **Haluk Akçali**, Chief Executive Officer, Fark Labs, Türkiye
- **Aytül Erçil**, Co-Founder and Co-CEO, Vispera Information Technologies, Türkiye
- **Sila Gök**, Founder and Chief Executive Officer, Idea Strategical Pr, Türkiye

Chaired by

- **Thanos Mitrelias**, Founding Director, Cambridge BioMagnetics, United Kingdom

15.30-16.00 Contact Break

16.00-17.30 Sessions

Investing in Türkiye (Room 1)

The Turkish government has concentrated growth on its infrastructure, education and green innovation delivering continuous results. For instance, cleantech is driving both physical and digital growth across Eurasia incorporating knowledge-intensive advances. What does the Türkiye's investment future offer inwards investors? How can the country serve as start-off hub for global investments?

- **Adnan Akfırat**, Director, TUCEM Turkish Chinese Business Matching Center, China
- **Kaan Kalıpci**, Venture Partner, Nuwa Capital, Türkiye
- **Kaan Kızıroğlu**, Managing Partner, Servo Capital Advisors, Türkiye

- **Sinan Yildirim**, Chief Executive Officer, Craft Capital, Türkiye

Chaired by

- **Ebru Yarikkaya**, Managing Director, ALYS Capital Partners, Türkiye

Developing an Innovation-Oriented Society (Room 2)

Well-developed societies are based on order and rules – but innovators look beyond rules. Not to break the norms of society; but society fears the uncertain consequences of change. How to educate to promote innovation? How to educate the gatekeepers to accommodate, not resist change? What are the other needs of an innovation society?

- **Achille Agbe**, Chairman, EIC Corporation, France
- **Michael Barskyi**, Head of S-PRO Switzerland, S-PRO, Switzerland
- **Kemal Brown**, Founder, Digita Global Group, Jamaica
- **Marcello DeMello**, Co-founder, PicnicBank, United Kingdom
- **Jon Soberg**, Managing Partner, MS&AD Ventures, USA

Chaired by

- **Metin Guvener**, Founding Chairman, Optima Orbits, United Kingdom

Strategies for ClimateTech Development (Room 3)

Many firms have become inured to climate change demands, progress is slow. How can CEOs deploy tech and analytics offensively to improve operations, move to cleantech, or recycle? Or defensively to reduce emissions across their firm's estate? What new vision is needed?

- **Pankaj Choudhary**, Founder, Let's Do it India Foundation, Founder
- **Vaitea Cowan**, Co-founder, Enapter, Germany
- **Mustafa Ergen**, Founder, Ambeent, Türkiye
- **Elvan Guven**, Member of the Board, Tektug Electricity Production, Türkiye

Chaired by

- **Piers Cumberlege**, Chair, Straightview International, United Kingdom

Bridging the Digital Divide: For a Sustainable, Innovative Economy (Room 4)

Everyone should have safe and affordable Internet access by 2030. Born global in 2020, the UN High-level Panel on Digital Cooperation has high ideals to create a more equitable knowledge-sharing world. This will directly help the goals of sustainable development. What is needed to get the UN goals enacted? Is it an aspiration too far?

An opportunity to meet to open new ventures with other delegates.

14.30-16.00 **Sessions**

AI Creating a Nascent Post-Industrial Civilization (Room 1)

The novelty of AI and its apps and applications seem capable of creating an evolutionary new world, a post-industrial work/leisure space. Our imaginative panel will tackle the big global questions – including, how will the nature of work and social organizations change? How will AI impact our conceptions of privacy and freedom or our proclivity for craftsmanship and creativity? Will this Post-Industrial Civilization enable the evolution of humanity?

- **Nuno Neves Cordeiro**, Senior Advisor on Strategy and AI in Financial Services, Switzerland
- **Marina Gracia March**, Founder, AlmAware, Spain

Chaired by

- **David Bruemmer**, Founder, w8less, USA

Investing in Sustainable Priorities (Room 2)

Some industrial sectors are ‘constants’ in any future scenario – such as cement and transport mobility since without them we can’t literally build the future. Depollution implies labor market disruption. How to retain and retrain talent in important sectors? How to ensure interlinking business sectors are not adversely affected by heavy industry changes and by systemic timing changes?

- **Selin Arslanhan**, Founder, ReDis Innovation, Türkiye
- **Hulya Gedik**, Chair, Gedik Holding, Türkiye
- **Alistair Clark**, Member of the Board, Venus Minerals, United Kingdom

Chaired by

- **Undral Amarsaikhan**, Chief Executive Officer, TenGer TV, Mongolia

Resilient and Smart Cities – Another Climatic Parameter to Consider (Room 3)

Resilient and smart cities like Gaziantep's renovation will combat pollution by reducing the need for personal fossil-fueled transport, but how will they resist temperature and sea-level rises? If cities are relocated to uplands, how to communicate with legacy systems along sea shores? Amid the shock of natural disasters like the Gaziantep earthquake, will governments look more openly at public-private developments to accelerate vital new developments?

- **Türker Bas**, Professor, Galatasaray University, Türkiye
- **Berrin Benli**, Founder, Novusens Smart City Institute, Türkiye
- **Catherine Cunningham**, Founder, Eikosphere, USA

Chaired by

- **John A. Quelch**, Charles Edward Wilson Professor Emeritus, Harvard Business School, USA

Talent Determines Innovation and Growth (Room 5)

Highly skilled people are difficult to find as implied in the long interview sessions of big firms. But many large Tech firms have recently divested staff – what will those people do? Will they unite and innovate – what might they create? Will they create products that are sustainable not simply profitable in the short term – balancing their own cash needs against a better future?

- **Irina Curbelo**, Co-Founder, Percheron Advisory, France
- **Sami Divleli**, Chairman, Net Zero Climate Investments, Türkiye
- **Serif Kaynar**, Chairman, Korn Ferry Türkiye, Türkiye

16.00-16.30 Contact Break

16.30-18.00 Sessions

Strategically Assessing the State of the World (Room 1)

The world is in a weakened condition compared to pre-COVID times: it carries many uncertainties and fragilities. Are there nations who, despite their own issues, might be well-placed to be conflict mediators? What gives Türkiye the best insights to mediate the Russia/Ukraine conflict? What measures can Türkiye suggest to develop new global alliances across macro-economic, societal, geopolitical and technological linkages that may support beneficial change?

- **Yasemin Atay**, Co-Founder, Electroplax, Türkiye
- **Sekai Holland**, Chairperson of Board of Trustees, Zimbabwe Peacebuilding Initiative; Former Minister of State for National Healing, Reconciliation and Integration, Zimbabwe

Inflation and Market Forces (Room 2)

Whenever central banks change their guidance investors rapidly alter portfolios. However, many aspects of markets are slow to change – how to maintain a reliable outlook during transitory times? How to explain to the public who bear tax burdens, what has altered their economy and over what periods? How to guard against inflation?

Working Better in a Frugal World (Room 3)

Many firms and regulators are looking to recycling, up-cycling or simply making products frugally to conserve resources. How difficult is it to redesign, especially regarding rural regions, to keep customers confident about quality and fitness for purpose? Objects, homes and society are becoming more connected: is complexity challenging frugality and resource conservation?

Web 3.0: Transforming the Global Economy (Room 4)

The Web, through versions 1.0 and 2.0 have moved from static web pages to the use of the Web as a Platform permitting tech giants to dominate our usage. Web 3.0 might be based on embedded but decentralized blockchains to help manage the integration of our finances and requests for objects or knowledge. Will Web 3.0 aid policy makers in their search to regulate? Will using tokens aid all our lives? Will we cope easily as self-sovereign entities become embedded in a metaverse?

Innovation in Service Industries (Room 5)

In many countries, challenging their energy reserves have led to an innovation in their service sectors. Türkiye is looking for long-term change in its development plans, including its service sectors while developing its green energy needs. What are the deserving sectors in the Turkish and global service industries? How to nurture niche aspects like AI applied to vertical farming, or to medical prostheses? How to elicit the best integrated way forward?

Future Scenarios for Russia (Room 6)

The future of Russia depends primarily on how the war in Ukraine plays out. What scenarios should the world prepare for in the coming months and beyond? Should the world prepare for a transformation of Russia's political system? Will Russia continue its pivot to the global South at the expense of relations with the West, or will it once again seek to become a member of the global community?

Harmonizing Planetary and Human Needs (Room 7)

The world seems to be heading deeper into ecological destruction at the same time of rising human suffering, depression and ill health. How are the two trends related? Can mankind and the planet live in harmony? Are we doing enough to help our societies cope with the upcoming change? Can we reconnect with nature/planet without first reconnecting to ourselves and each other? What needs to shift and when, what are the shackles holding us back?

18.00-19.00 **Summary Plenary: Creating Impact** (Auditorium)

The summary plenary will highlight the recommendations and initiatives identified during the meeting and how progress can be made in the coming years. We have seen how the City of Gaziantep has striven to redevelop after the earthquake: how can the world redevelop? We will debate and illustrate a roadmap for transition – and what it will take for us to create impact with Innovation, Sustainability and Reconstruction.

19.30-22.00 **Closing Dinner: Rebuilding Broken Lives** (Divan Hotel)

Türkiye, located on geological fault lines, has suffered many earthquakes which always devastates families and economies. Yet it rebuilds – and it helps to remake lives broken by wars and conflicts nearby and afar. What might we learn from its strength and optimism? How can we apply its modes elsewhere in the world to make it a better place?
