# Welcome

Warm greetings to all participants of the Global India Business Meeting. We are happy to host this event in Munich.

India is Bavaria's fourth most important trading partner in Asia and trade between India and Bavaria has risen by double digit figures over the past five years. Munich is home to more than 60 Indian companies and welcomes an increasing number of Indian tourists and business people alike.

On behalf of the State of Bavaria and its capital city of Munich, of Munich International Trade Fairs (MMI) and of the Bavarian Business Association (vbw) I should like to thank you for joining us.

We are convinced that this meeting will generate new impetus to further improve the dialogue between our two countries and to strengthen our economic ties.

I invite all political leaders and top executives in industry to make their contribution.

I wish you a memorable stay and I hope to see you back in Bavaria some day.

Warm regards,

Martin Zeil  
Bavarian Minister of Economic Affairs, Infrastructure,  
Transport and Technology  
Deputy Prime Minister

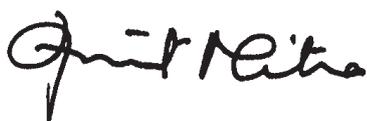

# Welcome

I am delighted to welcome global thought leaders and decision makers to the first edition of the Global India Business Meeting. FICCI is honoured to co-host this meeting, which aims to be a conclave of top CEOs from all sectors of the Indian economy and other parts of the world. We shall congregate in the dynamic state of Bavaria with a view to find strategies to address the pressing issues facing global business today. We also hope to evolve new models of cooperation between Indian industry and their international counterparts.

We live in a global economic microcosm that is hypersensitive to every touch – be it political, financial, or related to the health of the population. I urge all participants to take greatest advantage from this unique Forum and take home value.

FICCI, as the thought leader and harbinger of positive change for Indian industry, is proud to be part of this initiative. I am confident that the in-depth discussions and networking at this forum will create new partnerships and precipitate new thinking.
