Welcome

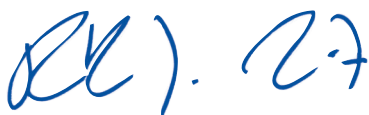

I warmly welcome you to the Horasis Global Meeting and sincerely hope that you will enjoy the discussions. My thanks go to the Liverpool City Council as well as to all our partners and supporters. Horasis is glad to have been invited to host the inaugural event of the 2016 International Festival for Business.

The Horasis Global Meeting aims to be the world's foremost annual gathering of business leaders who interact with heads of governments and key ministers as well as Nobel laureates and other thought leaders. The meeting's purpose is to advance solutions to the most critical challenges facing corporations today. Participants share a common interest in mapping our global economies.

Economic and political uncertainty are threatening to end an era of global integration that grew through the boom years after the fall of the iron curtain. Under the theme 'Visions for Tomorrow – from Uncertainty to Confidence', participants will share insights on the current state of the world and identify visions to build confidence enabling decisive progress towards a richer society.

The Horasis Global Meeting provides an unparalleled opportunity for the world's leaders to develop the solutions to respond to the challenges and opportunities of the future.

I wish you a thought-provoking and exceptional meeting.

Welcome

Dear Participant,

I am delighted to welcome you all to Liverpool to attend the Horasis Global Meeting 2016, which the city is hosting as part of the UK's International Festival for Business 2016 (IFB2016).

IFB2016 is the largest global concentration of business events held in the world this year, and to have the Global Meeting taking place in Liverpool, as part of the Festival, presents a rare but fitting opportunity for us all to be part of this once in-a-generation business and cultural experience.

Liverpool is proud to hold the inaugural Horasis Global Meeting and under the theme 'Visions for Tomorrow – from Uncertainty to Confidence' the city provides a fitting host. Following a period of strong renaissance in the two decades to the 2008 global financial crisis, Liverpool is successfully restructuring its economy to adapt to the new economic challenges and build confidence in the city.

As such, Liverpool provides an example of the debate that will be taking place within the Global Meeting. I welcome the opportunity to participate within a wider, global debate, on the future opportunities and challenges and contributing towards identifying solutions.

Liverpool is renowned for being a great global trading city and we now live in a truly global economy. The following few days will provide a powerful platform for you, as international entrepreneurs, business leaders and government officials, gathered here for this significant event, to hold valuable and engaging discussions to support economic growth in our respective cities, regions and countries.

Liverpool Vision has worked closely with Horasis over the past months on this ambitious event, and I hope that you find it both inspiring and informative. I do hope you enjoy your time in Liverpool and I look forward to the pleasure of welcoming you back in the future.
